QA Test Analyst | Manual QA Engineer

Dependent Skilled Worker Visa | Full Right to Work in the UK | Immediate Availability

PROFESSIONAL PROFILE

QA Test Analyst with 2+ years of commercial experience delivering high-quality software testing across Banking, eCommerce, Hospitality, and customer-facing web applications. Experienced throughout the Software Testing Life Cycle (STLC), including functional, system, regression, smoke, integration, exploratory, end-to-end, and User Acceptance Testing (UAT).

Skilled in designing and executing test cases, REST API testing using Postman, SQL data validation, defect management using Jira, and collaborating within Agile Scrum teams to deliver reliable software releases. Strong analytical and problem-solving skills with a keen eye for detail and a commitment to continuous improvement. Currently enhancing automation testing skills using Selenium WebDriver and expanding knowledge of Playwright.

TECHNICAL SKILLS

Testing

- Manual Testing
- Functional Testing
- Regression Testing
- Smoke Testing
- System Testing
- Integration Testing
- Exploratory Testing
- User Acceptance Testing (UAT)
- End-to-End (E2E) Testing
- Cross-Browser Testing
- Web Application Testing
- Mobile Application Testing
- Test Planning

- Test Case Design
- Test Execution
- Defect Reporting
- Defect Management

API & Database

- REST API Testing
- Postman
- SoapUI
- SQL
- Database Testing
- Data Validation
- JSON Validation

Tools

- Jira
- TestRail
- Chrome Developer Tools

Automation

- Selenium WebDriver (Basic)
- Playwright (Learning)

Methodologies

- Agile Scrum
- Software Development Life Cycle (SDLC)
- Software Testing Life Cycle (STLC)

Domain Knowledge

- Banking
- eCommerce
- Web Applications
- Mobile Applications

PROFESSIONAL EXPERIENCE

Volunteer – Retail & Customer Support

Age UK Coventry & Warwickshire

May 2026 – Present

- Deliver excellent customer service in a busy charity retail environment.
 - Process cash and card transactions accurately while maintaining high customer service standards.
 - Organise stock, replenish shelves, and maintain attractive product displays.
 - Support daily store operations by working collaboratively with staff and volunteers.
 - Demonstrate strong communication, teamwork, and organisational skills.
-

Career Break – Childcare & Professional Development

United Kingdom

Jul 2020 – Dec 2024

- Took a planned career break following relocation to the United Kingdom.
 - Continued professional development through software testing courses and self-directed learning.
 - Completed training in REST API Testing, SQL, Jira, Agile methodologies, Selenium WebDriver, and AI-assisted software testing.
 - Strengthened software testing knowledge through certifications and practical learning activities.
-

QA Test Analyst

Cognizant Technology Solutions, India

Jul 2019 – Jun 2020

- Tested enterprise banking web applications within an Agile Scrum environment.
- Analysed business requirements and Agile user stories to prepare comprehensive test scenarios and test cases.
- Supported sprint planning activities and contributed to defining testing approaches for software releases.
- Executed functional, system, regression, smoke, integration, exploratory, end-to-end, and User Acceptance Testing (UAT).
- Performed REST API testing using Postman and validated backend data using SQL queries.
- Conducted cross-browser testing to ensure application compatibility across multiple browsers.
- Logged, prioritised, tracked, and verified software defects using Jira.

- Collaborated with developers, Business Analysts, Product Owners, and stakeholders to resolve defects efficiently.
 - Participated in sprint planning, daily stand-ups, defect triage meetings, and release validation activities.
 - Maintained accurate testing documentation and contributed to successful software releases.
-

Junior Software Engineer (QA)

Plotel Solutions, India

May 2018 – Jun 2019

- Performed manual testing for hospitality web applications throughout the Software Development Life Cycle.
 - Designed, reviewed, and executed test cases based on business and functional requirements.
 - Conducted functional, regression, integration, system, and exploratory testing.
 - Identified, logged, tracked, and verified software defects while collaborating closely with development teams.
 - Supported release validation activities before software deployment.
 - Contributed to improving application usability, stability, and overall customer experience.
-

PROFESSIONAL DEVELOPMENT

- Active member of the uTest community and continuously developing software testing knowledge.
 - Regularly complete LinkedIn Learning and Udemy courses to strengthen QA skills.
 - Currently developing automation testing skills using Selenium WebDriver and learning Playwright.
-

CERTIFICATIONS
